### Desired result

Good standard surface after grinding. Ideal starting base for polishing.

Perfect surface with radiant gloss on bright paints.

Absolutely hologram-free surface with exclusive shine, even on dark coatings.

Protected, noticeably smoother, silicone-free surface with high gloss value and perfect water beading.

\*All listed systems are flexible and understood to be recommendations. The majority of all practical applications is covered. Optional additional products are available for every finish level and can be used in place of individual polishes as needed. The entire polishing program is available at [www.menzerna.com](http://www.menzerna.com)
